

M&A Webinar Series - 2020 M&A Year in Review: Lessons Learned

12.15.2020

In just about every way, the world turned upside down in 2020. Deals were no exception. Whether it was incorporating a PPP payoff or forgiveness into deal terms, drafting MAE, interim operating covenants and working capital terms in this new environment, representations and warranties insurance coverage and business interruption or event cancellation insurance claims, we've seen first-hand how COVID-19 has affected transactions.

Join attorneys Philip Goodpasture, Meagan Kalantar and Larry Parker for a discussion on what they've seen in 2020 and what to be mindful of as we head into another uncertain year.
